This is interesting. We will proceed on the current timeline unless/until we hear differently. I am reviewing the draft cover letter now.

Subject: FYI - (Bay Delta) California Congressional Members Request Additional 60-day Extension on Cal Water Fix / Bay Delta Conservation Plan Documents

(Bay Delta) Eleven California Congressional Members Request Additional 60-day Extension on Cal Water Fix / Bay Delta Conservation Plan Documents: A bipartisan group of eleven (11) California Members have requested an additional 60 days for the public comment period until December 29, 2015 for the partially recirculated environmental documents for the Cal Water Fix / Bay Delta Conservation Plan. The Members letter states that, "Given the size and complexity of the documents, particularly in light of the 40,000 pages associated with the original EIR/EIS which provides the context and foundation for this latest proposal, we feel the current public comment period is inadequate and an additional 60 days beyond the current review period is warranted," Among the signatories on the letter are Representatives Jeff Denham, John Garamendi, Doug La Malfa, Jared Huffman, Doris Matsui, Ami Bera, Mike Thompson, Jerry McNerney, Eric Swalwell, Mark DeSaulnier, and Tom McClintock. EPA Administrator Gina McCarthy is one of the addresses of the letter.
